Toolijooa Environmental Restoration is a leading provider of environmental management and restoration services throughout the Sydney Bioregion, Coastal and regional NSW.

Natural area management and restoration

Toolijooa's bushland regeneration teams provide comprehensive natural area management and restoration services across the full spectrum of site condition—from heavily degraded creek lines to high quality remnant vegetation.

Natural area management and restoration services include:

- Primary, secondary and maintenance regeneration works
- Pre and post-fire regeneration works
- Habitat creation, enhancement and maintenance
- Noxious and environmental weed control and management
- Soil stabilisation and erosion control
- Mulching
- Revegetation
- Brush-matting
- Direct seeding
- Bushcare supervision
- Green Team

Bushland regeneration

Natural area rehabilitation and reconstruction

Toolijooa's Special Projects division specialises in large-scale natural area rehabilitation and reconstruction projects that differ from more traditional bush regeneration. These include construction-type projects, natural area rehabilitations where higher levels of intervention are required as well as more specific/targeted bushland management works such as noxious weed control.

Special Projects services includes:

- Large-scale revegetation works
- Direct seeding
- Soil stabilisation
- Creek line and riparian rehabilitation
- Noxious weed control
- Track construction
- Soil translocations
- Mine site rehabilitation
- Rope-assisted access
- Asset Protection Zones
- Subdivisions
- Central West NSW Green Team

Large-scale revegetation

Toolijooa Nursery

Toolijooa's founding business, Toolijooa Nursery has been in operation since 1997 and specialises in the collection and propagation of provenance native seed and cuttings throughout the Sydney Basin and NSW.

Nursery services include:

- Contract propagation and general stock sales
- Wetland plants
- Forestry tubes, Hiko cells, 1.5L to 25L pots
- Contract seed collection
- Provenance specialists

Toolijooa nursery, West Hoxton

Seed Collection

Toolijooa Nursery's seed collection team follow Florabank best-practice guidelines and operates within a strong ethical framework, respecting issues of genetic integrity and diversity.

Our team of seed collectors are fully licensed under Section 132C of the National Parks and Wildlife Act 1974 to collect within Endangered Ecological Communities throughout Sydney and have extensive experience collecting from specific ecological communities of specific provenance.
